

Carousel Conveyor CR-150

The Carousel-Conveyor CL-150 is used for transportation and indexing workpieces in padprinting machines

Advantage of the Carousel CR-150:

- The assembly of the workpieces takes place during the printing procedure
- The positioning of the workpiece permits a halftone printing
- Electromechanical drive. No compressed air!
- Durable construction
- Simplest maintenance

Technical Data:

Number of plates	14
Indexed plates	4
Step	150mm
Drive	electromechanically
Cycles/hour	ca. 1200
Electrical port	240 V
Control Voltage	24 V DC
Power	250 W
