

UV-Curing Conveyor UVC 250

The UV-Curing Conveyor UVC 250 is used to cure workpieces that are printed with UV-Inks

The UV-Curing UVC-250 is applicable as conveyor, for smaller pressure formats, to cure UV colors and lacquers on shaped parts and flat material. The use of an UV drying process is an economic factor with the drying and curing of colors and lacquers. Under effect of UV-light the ink will polymerize within seconds to be processed further immediately. The compact building method of the UVC-250 ensures a small space requirement as well as an economic application. It can be supplied as tabletop unit or with underframe.

Spezifikation:

Curing width	250 mm
Lamp power	80 - 100 W/cm
Voltage	400 V / 50Hz
Current	8 A
Starting Current	12 A
Power consumption	max. 2500 W
Conveyor width	250 mm
Adjustable height conveyor-lamp	max. 100 mm
Belt speed	2 - 13 m / min.
Dimensions LxWxH	1300x580x400mm
Weight	50 kg
Cabinet	stainless steel
